

LAST FISHING OUTING OF THE YEAR: NOVEMBER 21TH

PASS LAKE OUTING

The outing is a great chance to land large brown trout as well as feisty rainbows. Everyone is bringing a floating device (float tube, pontoon boat, canoe, pram, etc.) since casting from shore is really not much of an option. It is well known that the lake's browns are susceptible to large streamers and that a sink-tip line may be the difference between catching one or not.

There is no Outings Fee, but the outing coordinator would like to know who is coming. So please use the NFA website to register.

WHAT TO BRING

- Washington fishing license and Discover Pass.
 - Fishing equipment: five- or six-weight rods, sinking lines, and 2-X and 3-X 6-foot leaders. Boat net sure would be handy. Don't forget your fins if you have a pontoon boat or float tube.
 - Warm clothes and rain gear. More warm clothes for the car.
 - Don't forget the gloves.
 - Thick waders and wool pants.
 - Suitable floating devices include: pontoon boat, float tubes, and canoe or pram.
 - Streamers that mimic minnows, such as a bullet head minnow or even a small Clouser. A few flies in olive, black, tan. See picture above
 - Camera in waterproof container (like a Ziplock bag).
 - Folding camp chair to sit around in while warming up on shore.
 - Your lunch and a thermos of hot liquid (coffee, tea, cocoa, or something stronger).
-

HOW TO GET THERE

- Take I-5 north.
- Pass Mt. Vernon and cross the Skagit River.
- Take Exit 230 (about 60 miles north of Seattle) and go west (left) on Rte. 20.
- Drive 11.7 miles and then turn left on Rte. 20 south.
- Rte. 20 passes Lake Campbell and then runs along the shore Pass Lake.
- You will see the parking lot at the western end of the lake.

PLEASE
NOTE

Register by Tuesday, November 17th. Use the Outings page at the club's website, northwestflyanglers.org. This will help the outing coordinator know you are coming.
